

Community Connectors Interest Form

What is a Community Connector? A community connector is an individual that has worked hard, done research, and created relationships to find the resources needed to support their child/youth with complex behavioral health issues.

Through this work, they have developed skills that can help support others through their similar journey and feel a desire to help ease the journey of other parents/caregivers.

If this is something that resonates with you, please fill out this form so other families in need may connect with you.

Information

Name _____

Phone _____
